### Building on the COGZ EZ Foundation

Besides being powerful, exceptionally easy to use, and exceeding the needs of thousands of maintenance departments across the world, COGZ EZ CMMS Software is easily expandable. One of its most valuable features is the built in ability for COGZ EZ to grow with you. There is never a need to convert or re-enter data as you add new capabilities. Start out with the COGZ EZ foundation, there is no need to purchase features "just in case". When you have established a definite need for an additional COGZ building block, it can be quickly and seamlessly added to your live, working software.

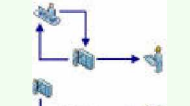

Most customers find COGZ EZ is all they need to run efficient, cost saving Preventive Maintenance Software, but rest assured that if the need arises for additional capabilities, COGZ has a range of modular building blocks that add to the COGZ EZ firm foundation, allowing COGZ EZ to grow as your company grows.

#### What COGZ Users are Saying!

##### Ames True Temper

Keith Carichner *Maintenance Manager*  
This is the second time I have used COGZ. Both startups were smooth and simple. The software is reasonably priced and is adaptable to many different types of businesses. I am very pleased with COGZ and feel that it is a solid investment.

##### Shillington Box Company LLC

Tim Courtney *General Manager*  
Among the 5 different major software providers that we use/license, COGZ takes the greatest steps to keep us informed and updated. This shows tremendous customer service and dedication!

##### East Balt of Denver

Alan F. Kildahl  
Technical support has been good and I believe it is one of the easiest programs to implement. The best part is, as you build the system and develop more needs you can add the modules you want. I have used two other systems in the past and COGZ is by far the easiest.

##### Tech Data

George Blais *National Maintenance Manager*  
COGZ is a good product. We have implemented it corporate wide. The support is the best I have ever seen.

##### Absorption Corp

Christy Van Wagoner *Executive Assistant*  
The best Customer Support that I've ever encountered!

## COGZ Systems

### Our Company

<b>Software and Service</b>	COGZ Systems is a leading provider of maintenance software and services enabling our customers to reduce costs and improve efficiency.
<b>Twenty Years Strong</b>	COGZ Systems has been successfully helping companies improve their maintenance operations for over twenty years. Our continuous growth and innovation assures you that COGZ will be there in the future for you.
<b>Worldwide</b>	Around the world, thousands of companies use COGZ every day to manage their maintenance operations.
<b>Maintenance Only</b>	COGZ Systems specializes in maintenance software and services! Maintenance software is the backbone of your maintenance management operation and should be the focus of the company supplying you with it. Don't gamble with a company that might decide to get out to the "maintenance software" business.
<b>Experience</b>	With decades of maintenance management experience, you will also be working with a staff that knows not only COGZ but MAINTENANCE as well.

### Our Capabilities and Services

<b>Training</b>	One of the best features of COGZ CMMS Software is that it requires very little training to operate, but if desired, full training is available both onsite or online!
<b>Implementation</b>	If you are short on time we have full implementation capabilities including data gathering and database development.
<b>Database Conversion</b>	When upgrading to COGZ CMMS Software, from another system, use the built in database import features to import your data or contract with us for a system delivered complete with your data.
<b>Data Integration</b>	The ODBC drive allows COGZ to integrate with other software systems. Our development team can also provide custom data integration services.
<b>Customization</b>	Our in house programmers look forward to your suggestions and requests for modifications. We also offer full customization services if there is specific feature that is important to your operation.
